

# Korea Certification Institute for Machine Diagnostics

(A Subsidiary of The Korean Society Noise and Vibration Engineering)

As a personnel certification body, Korea Certification Institute for Machine Diagnostics (KCIMD) aims to foster experts in condition monitoring and diagnostics of machines based on the conformity assessment systems for personnel by international standards (ISO/IEC 17024 and ISO 18436).

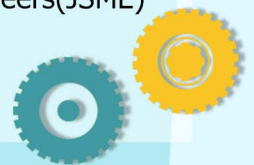

KCIMD is standardizing the level of technical personnel on the field of condition monitoring and diagnostics of machines, and certified technician's measurement and diagnosis results are internationally recognised by multilateral recognition arrangements (MLA) under International Accreditation Forum (IAF).

KCIMD expects to contribute to fostering professional technicians, developing the domestic industry and improving the international standard technology.

## History and Activities for KCIMD

- ✓ Established as a subsidiary under KSNVE (November, 2004.).
- ✓ Recognized as a personnel certification body (Accreditation number: **KAB-PC-04**, November 27, 2015, Korea Accreditation Board(KAB)).  
※ **Only one certification body for the condition monitoring and diagnostics of machines in Korea.**
- ✓ Operating nine(9) training bodies (based on December, 2017).
- ✓ Supervising certification test (twice a year): Issued certificates of about 2,000 persons (based on December, 2017).  
※ **ISO 18436-2(Cat.I~III), ISO 18436-4(Cat.I~II), ISO 18436-7(Cat.I~II)**
- ✓ Organizing technical training workshop: keynote speeches, case presentations, equipment booths tour, etc. (once a year).
- ✓ Holding a mutual conference meeting with Japanese Society of Mechanical Engineers(JSME) (once a year)
- ✓ ISO 18436-2 (Cat. IV) and ISO 18436-8 to be provided in the near future.

Accreditation Ceremony  
(November, 2015)

Conference of KCIMD (July, 2017)

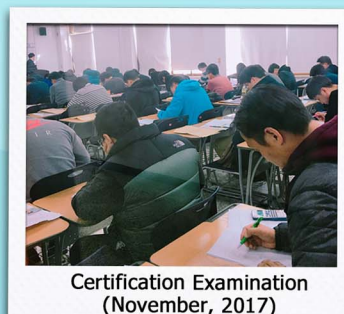

Joint Meeting of KCIMD  
and Training Bodies (July, 2017)

Workshop of KCIMD(August, 2017)

Annual Joint Meeting of KCIMD  
and JSME (August, 2017)

Certification Examination  
(November, 2017)

사단법인 한국소음진동공학회  
한국설비진단자격인증원
